Improved Sewing

The **longer J foot** and **feed dogs** allow the fabric to move smoothly and evenly for a better sewing experience!

NV990D

Fabric

When the fabric touches the foot, the angle is high.

NS1750D

Fabric

When the fabric touches the foot, the angle is low.

Improved Needle Bar

The needle bar has been improved. On the previous model, the needle bar would easily move when touched. The new model has a strong and sturdy needle bar that does not shift when touched.

Safety Feature

Presser foot / needle change button

Now, when changing the foot or needle on your machine, you can select the following feature to lock all keys and buttons. This makes it much safer!

New Applique Stitch

You spoke, we listened!

This stitch is lighter, simpler, and more square!

| Existing pattern	New pattern
3 stitches — 0.1 inch — 0.14 inch	1 stitch — 0.1 inch — 0.1 inch

Improved Stitch

You spoke, we listened!

Previously, the heart stitch was smaller than the other patterns,
so we improved the size and shape.
